

K-LOVE is a positive outreach to our community teenagers, not to mention adults. Lives are turned around. Personally I'm a hospice nurse that travels everyday to peoples homes. If I didn't have this support system I don't know what I'd do. This station is an alternative for our community. Not only Christians but lonely, hurting people. It is sometimes the only bright spot in my day. I pray you will consider this carefully for a lot of people will be effected if this station is effected by your proposed change in LPFM stations.
